Profile

Mandarin linguist turned software engineer, with 10+ years building production web software in the United States, Iceland and Finland. I've used AI in my development since 2022 and worked fully AI-native for a year: agents write most of my code, and my specs, tests and reviews decide what ships.

2M+ test executions per PR in the @northguild/gmt repo

13 Temporal reports & fixes; bugs in Node, V8, Firefox

5 products on one shared UI architecture at Corivo

10+ years of React & TypeScript, coding since 2012

Skills

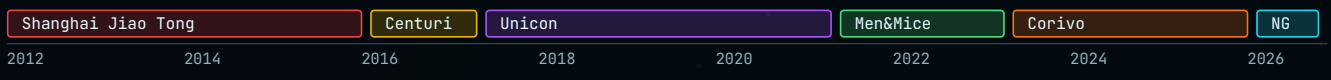

Frontend
TypeScript / React / Next.js App Router / TanStack / Design systems / Accessibility

AI-Native
Claude Code / Cursor / Spec-first TDD with agents / Parallel agents / MCP / RAG

Backend & Cloud
Node.js / NestJS / Express / Python / FastAPI / PostgreSQL / REST / GraphQL / AWS · Serverless

QA & DevOps
Vitest / Playwright / GitHub Actions / Cloudflare Workers / Docker / pnpm monorepos

Experience

NorthGuild · Independent Open-Source Engineering

Remote · Feb 2026 – Present

Open-Source Engineer (independent)

- `@northguild/gmt`: a Temporal-first date and time library with over 2 million test executions on every pull request.
- Its tests found bugs in the official Temporal polyfill: 13 reports and fixes sent upstream, 6 as ready-to-merge code.
- Co-built a GMT MCP server and API layer. Built Dox, a retrieval-based docs assistant in production.

Corivo (acquired by Travel Connect)

Reykjavik, Iceland (Remote from Finland) · May 2023 – May 2026

Senior Software Engineer

- Built the shared component, theming and localization layer (incl. EN/CN) for five products on one multi-tenant platform.
- Next.js App Router and TanStack Query over GraphQL and REST, PostgreSQL migrations, C#/.NET endpoint contributions.
- AI-native from September 2025 with Cursor in production. Set the testing, CI and Temporal-first date standards.

Men&Mice (acquired by BlueCat)

Reykjavik, Iceland (Remote from Finland) · Jun 2021 – Apr 2023

Frontend Engineer, DDI Infrastructure

- Micetro UI: grids, filters and search over tens of thousands of records.
- Led design-token standardization into a WCAG-compliant design system.

Unicon, Inc. — UX Developer (Frontend Engineer)

Phoenix, Arizona, USA (Remote) · May 2017 – May 2021

Took 6 client platforms from zero to production; three served millions of learners.

Centuri Group, Inc. — Application Developer (Enterprise Mobile & Web)

Phoenix, Arizona, USA · Feb 2016 – May 2017

Offline-first field apps for gas and electric utility crews.

Earlier Mandarin Linguist, U.S. Department of Defense (2006-2009) · Instructor, Shanghai Jiao Tong University (2012-2016) · Co-Founder, Minted Sky Studios (2011-2021) · Founding Chair, Finland Remigrants Association

Education University of Minnesota · B.A. Chinese, Anthropology, East Asian Studies & History · Summa Cum Laude, Phi Beta Kappa

Certifications Anthropic · 8 courses, incl. MCP (2026) · University of Helsinki · Full Stack Open · AWS DVA-C02 (in progress)

Languages English (native) · Mandarin (professional, DLPT5 3/3) · Finnish (A2 - B1) · Swedish (A1)
